Re: SEVIS NOTICE – SEVIS Release 6.27 Production Implementation

Number: 1607-03

General Information

The Student and Exchange Visitor Program (SEVP) will upgrade the Student and Exchange Visitor Information System (SEVIS) to Release 6.27. Attached is the SEVIS Release 6.27 Final System Changes, which outlines the changes the release will implement. This upgrade requires an outage of the Production and Alpha Test environments. See below for the outage details:

- The SEVIS Production and Alpha Test environments will NOT be available from Friday, July 8, 2016, at 8 p.m. to Saturday, July 9, 2016, at 3 a.m. EDT.

During the outage, users will not have access to the Production and Alpha Test environments. SEVP will not send a follow-up email regarding system availability. Please continue to monitor the SEVP broadcast messages and SEVIS message board for additional information regarding this outage.

If you have questions regarding any of the changes described in the attached notice, please contact the SEVIS Help Desk at 800-892-4829.

FOR BATCH USERS ONLY:

SEVIS Batch file processing will be unavailable until the scheduled upgrade is complete. Please refrain from uploading files in the Production environment during the outage. Files uploaded during the outage will receive an error, and users will have to reupload those files once the Production environment is available.
