MEMORANDUM FOR:

James T. Hayes Jr.

Field Office Director

Los Angeles Field Office

FROM:

John P. Torres

Director

SUBJECT:

Pasadena Jail Annual Review

The annual review of the Pasadena Jail conducted on May 11, 2007, in Pasadena, California has been received. A final rating of **Deficient** has been assigned. This rating was assigned due to the use of EMDDs (Electro Muscular Disruption Devices) commonly known as tasers at this facility. No further action is required and this review is closed.

The rating was based on the Reviewer-In-Charge (RIC) Summary Memorandum and supporting documentation. The Field Office Director must now initiate the following actions in accordance with the Detention Management Control Program (DMCP):

- 1) The Field Office Director, Detention and Removal Operations, shall notify the facility within five business days of receipt of this memorandum. Notification shall include copies of the Form G-324A, *Detention Facility Review Form*, the G-324A Worksheet, RIC Summary Memorandum, and a copy of this memorandum.
- 2) Headquarters, Detention and Removal Operations in coordination with the Field Office Director shall schedule the next annual review on or before May 11, 2008.

Should you or your staff have any questions regarding this matter, please contact b6, b7c b6, b7c Deputy Assistant Director (Acting), Detention Management Division at (202) 732-

Reviewer In Charge

Los Angeles Detention and Removal Operations

SUBJECT:

Pasadena Jail Annual Detention Review

The Los Angeles Field Office of Detention and Removal Operations performed a review of the Pasadena Jail on May 11, 2007. This review was performed under the supervision of George Rogers, Reviewer-In-Charge.

# Type of Review:

This review is a scheduled Operational Review to determine general compliance with established Immigration and Customs Enforcement (ICE) National Detention Standards. The last review of this facility was on May 19, 2007.

# **Review Summary:**

The facility is accredited by the Board of Corrections, Title 15.

The following review summarizes only those standards <u>not</u> in full compliance. Each Standard is identified and a short summary is provided regarding standards or procedures not currently in compliance. In some instances, it appears that the facility meets the standard but is required to change its operating procedures to comply with language contained in the ICE Detention Standards. These are considered to be administrative changes that do not affect the daily operation or will have an insignificant affect on how the facility is operated. There were 25 acceptable standards and 0 deficient standards. Two standards were not applicable.

FOR OFFICIAL USE ONLY (LAW ENFORCEMENT SENSITIVE)

Pasadena Jail houses detainees for a period of up to 48 hours. During intake, no medical staff is present. If a detainee has a medical condition or is taking medication he is not accepted. The detainee will also not be accepted if he displays or appears to be a behavioral problem. If there is a medical emergency they have direct contact with the Fire Department. There is no food service prepared on site. All meals are prepared elsewhere and heated at the facility.

#### **RIC Observations:**

BEST PRACTICE: The facility has outstanding population counts. All movement ceases and counts are performed every hour.

STAFF: The staff we encountered was courteous, knowledgeable, and professional. They were acceptable and open to recommendations for changes to their facility.

COMMUNICATION: There are no significant concerns or issues as a result of this review.

# Constraints or Difficulties Experienced During the Review:

During the review, no constraints or abnormal difficulties were encountered. Staff and detainees were cooperative and available to assist reviewers or to answer questions posed by the team.

# At Risk or Repeat Findings:

None of the ICE detention standards were found to be at risk during the inspection of this facility.

# **Recommended Rating and Justification:**

The result of a careful evaluation and review of the procedures and operation of the facility reflects their ability to provide for the proper and humane care of ICE detainees within the guidelines of the ICE Detention Standards. The detention functions are being adequately performed. The deficiencies that exist do not detract from the acceptable accomplishment of the vital functions. Internal controls are such that there are no performance breakdowns that would keep the program from continuing to accomplish its mission. As a whole, the documentation viewed supports the notion that the facility should be rated as **acceptable**.

### **RIC Assurance Statement:**

It is the opinion of the Reviewer In Charge that the findings of compliance and non-compliance are documented on the G-324B Inspection Form and that it is supported by documentation in the review file.

**Policy:** The U.S. Department of Homeland Security authorizes the use of force only as a last alternative after all other reasonable efforts to resolve a situation have failed. Only that amount of force necessary to gain control of the detainee, to protect and ensure the safety of detainees, staff and others, to prevent serious property damage and to ensure institution security and good order may be used. Physical restraints necessary to gain control of a detainee who appears to be dangerous may be employed when the detainee:

#### **DETAINEE TRANSFER STANDARD**

**Policy**: ICE will make all necessary notifications when a detainee is transferred. If a detainee is being transferred via the Justice Prisoner Alien Transportation System (JPATS), ICE will adhere to JPATS protocols. In deciding whether to transfer a detainee, ICE will take into consideration whether the detainee is represented before the immigration court. In such cases, the Field Office Director will consider the detainee's stage within the removal process, whether the detainee's attorney is located within reasonable driving distance of the facility, and where the immigration court proceedings are taking place.
