

MEMORANDUM FOR:

Gloria Kee

Field Office Director

Los Angeles Field Office

FROM:

John P. Torres

Acting Director

SUBJECT:

Ventura County Detention Facility Annual Detention Review

The review of the Ventura County Detention Facility conducted on July 19-20, 2005, in Ventura, California, has been received. A final rating of <u>Acceptable</u> has been assigned and this review is closed.

The rating was based on the Reviewer-In-Charge (RIC) Summary Memorandum and supporting documentation. The Field Office Director must now initiate the following actions in accordance with the Detention Management Control Program (DMCP):

- The Field Office Director, Detention and Removal Operations, shall notify the facility within
  five business days of receipt of this memorandum. Notification shall include copies of the
  Form G-324A, Detention Facility Review Form, the G-324A Worksheet, RIC Summary
  Memorandum, and a copy of this memorandum.
- 2) The Field Office Director shall schedule the next annual review before July 20, 2006.

Should you or your staff have any questions regarding this matter, please contact Deputy Assistant Director, Detention Management Division at (202) 732 b2 high

MEMORANDUM FOR:

John P. Torres

Director (Acting)

Office of Detention and Removal

FROM:

b6. b7

Reviewer In Charge

Los Angeles Field Office

b6, b7c

SUBJECT:

Ventura County Pre-Trial Detention Facility/Todd Road Facility

Annual Detention Review

### Type of Review:

This review is a scheduled Operational Review to determine general compliance with established Immigration and Customs Enforcement (ICE) National Detention Standards. The last review of these facilities was on August 17 - 18, 2004. All worksheets and working papers are maintained in the appropriate file system and are available for review by the Review Authority.

#### **Review Summary:**

Both facilities operate under the guidelines of Title 15. In addition, they are accredited by the Institute for Medical Quality (subsidiary of the California Medical Association). The current medical accreditation expires May, 2006. The accreditation review is performed every three years.

Page 2

## **Review Findings:**

The following information summarizes those standards <u>not</u> in compliance. Each standard is identified and a short summary provided regarding standards or procedures not currently in compliance.

Compliant - 24
Deficient - 0
At-Risk - 0
Non-Applicable - 3

## **Standards Summary Findings:**

The Ventura Pre-Trial Facility has improved their In-Take Processing to ensure no person is detained in the holding cells for more then 3 to 4 hours, before being moved to a housing area. In addition, both facilities have removed the disciplinary "meat loaf" meal and are no longer served. All required ICE National Detention standards are being observed and there were no deficiencies observed by any team member during this review.

The class action law suite filed in 2003 is currently still pending. The class action suite prevents them from performing strip searches on any person booked into the facility or returning from outside court hearings until there is a final decision in the case. The facility continues to conduct pat down searches and a complete change of clothing to all inmates returning from court hearings. This procedure is performed at both facilities and was observed by the male team members.

The Ventura Pre-Trial facility stated that the increased amount of Chemical Agents usage is due to the fact that they have more inmates who are combative because of drug abuse. In some instances one inmate has been sprayed more then one time in any day, while in SMU Administrative Segregation. In addition, the increase of outside medical referrals is attributed to this same drug abuse of the inmates booked into the facility.

#### **RIC Observations:**

BEST PRACTICE: The facilities have developed a computer system that enables them to view all aspects of each inmate's time while incarcerated. This is why the team was only able to review the medical records of some inmates that are located in the medical units. The computer system allows for all Sheriffs personnel to access any inmates recorded stay including housing movements, meals, medical attention including medicine dispensing, disciplinary and special management housing, court hearing dates and time, etc. Within a few minutes it is possible to view every aspect of an inmate.

Subject: Ventura Court Pre-Trial Detention Facility/Todd Road Faculty

Annual Detention Review

Page 3

STAFF: During the tour of each facility, all staff was pleasant and professional toward the team. The staff exhibited working knowledge in their respective areas and answered all questions. They were eager to demonstrate various procedures and ensured the team that they were in compliance with not only their policies but ICE Detention Standards as well. Even though the Ventura Pre-Trial facility is older, the team was informed that the current Commander demands cleanliness. It was very obvious to the team that all areas including the kitchen maintained this very high standard. The Todd Road facility as well practices this same high standard and is very well maintained.

COMMUNICATION: There are no significant concerns or issues as a result of this review. There is continued communication with ICE personnel and the facilities on a weekly basis. Staff at the ICE Ventura Sub-Office and the Ventura Pre-Trial Facility communicates via telephone and e-mail to ensure daily operations are maintained.

#### **RIC Issues and Concerns**

At this review, there were no issues or concerns to report at either facility.

## Recommended Rating and Justification:

It is the Reviewer in Charge recommendation that the facility receive a rating of "Acceptable". It is the recommendation of the RIC that no plan of action is required and this review should be closed.

#### **RIC Assurance Statement:**

All findings of this review have been documented on Form G-324B and are supported by the written documentation contained in the review file.

## Significant Incident Summary Worksheet

For ICE to complete its Review of your facility, the following information must be completed prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE detention standards in assessing your detention operations. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report.

#### **RIC Review Assurance Statement**

By signing below, the Reviewer-In-Charge (RIC) certifies that all findings of noncompliance with policy or inadequate controls contained in the Inspection Report are supported by evidence that is sufficient and reliable. Furthermore, findings of noteworthy accomplishments are supported by sufficient and reliable evidence. Within the scope of the review, the facility is operating in accordance with applicable law and policy, and property and resources are efficiently used and adequately safeguarded, except for the deficiencies noted in the report.
