

287(g)

U.S. Immigration
and Customs
Enforcement

FY2025 | APRIL

Monthly Encounter Report

287(g) Overview:

The U.S. Immigration and Customs Enforcement (ICE) 287(g) Program enhances the safety and security of communities by creating partnerships with state and local law enforcement agencies to identify and remove illegal aliens from the United States.

Section 287(g) of the Immigration and Nationality Act authorizes the Director of ICE to enter into agreements with state and local law enforcement agencies to designate officers to perform certain immigration law enforcement functions. State and local officers who partner with ICE receive training and function under the supervision of ICE officers.

The mutually beneficial agreements allow state and local law enforcement to act as a force multiplier in the identification, arrest, and service of warrants and detainers on foreign-born individuals arrested on local criminal charges.

Individuals deemed amenable to removal are identified while in state or local custody and then transferred to ICE custody in a

secure law enforcement facility. Without a cooperative agreement, state and local law enforcement may not be aware of an inmate's unlawful immigration status and may release the individual back into the community. ICE may then only locate the individual via an at-large enforcement operation or after the individual is arrested by local law enforcement for a subsequent crime.

Federal, state, and local law enforcement working together creates efficiency while providing a tremendous benefit to public safety.

The 287(g) Program continues to receive overwhelmingly positive feedback from its partners. Law enforcement agencies interested in becoming a partner under the 287(g) Program should send an inquiry to their local ICE ERO Field Office at <https://www.ice.gov/contact/ero>.

The cases that follow are a sampling of criminal aliens recently identified by state or local law enforcement operating under the 287(g) Program. Each of these individuals will be processed for removal by ICE in accordance with federal law.
