MEMORANDUM FOR: Tae D. Johnson  
Assistant Director, Custody Management

THROUGH: Jay M. Brooks  
Deputy Assistant Director, Detention Management Division

FROM: Glenn J. Triveline *[Signature]*  
Deputy Field Office Director, Chicago Field Office

SUBJECT: Chase County Detention Center, Kansas – Waiver Request

Purpose

Provide a waiver for the Chicago Field Office, Chase County Detention Center (CCDC), as it relates to the Medical Care Standard, Section (III)(B) within the 2000 National Detention Standards (NDS), which states the following “A holding/waiting area will be located at the entrance to the medical facility. This area will be under the direct supervision of custodial officers and not medical staff. A detainee toilet and drinking fountain will be accessible from the holding /waiting area.”

Background

On July 16, 2015, a Nakamoto Compliance Inspection of the CCDC reported the facility does not have a waiting room for the medical department.

Discussion: A corrective action or a work-around is not available because CCDC does not have a separate space available in the Jail that can provide a dedicated waiting room. The facility does not have a waiting room for the medical department. Detainees scheduled for medical appointments are escorted individually to the medical department and are seen immediately.

Recommendation

I recommend the authorization of a waiver for the Chase County Detention Center, relating to the Medical Care Standard, Section (III)(B) within the 2000 NDS, due to detainees scheduled for medical appointments are escorted individually and are seen immediately.
