MEMORANDUM FOR: Tae D. Johnson
Assistant Director, Custody Management

THROUGH: Jay M. Brooks
Deputy Assistant Director, Detention Management Division

FROM: Glenn J. Triveline 
Deputy Field Office Director

SUBJECT: Boone County Jail, Burlington, Kentucky – Waiver Request

Purpose

Provide a waiver for not posting the emergency plans with accessible building/room floor plans and directional arrows or area specific exit diagrams for the Chicago Field Office, Boone County Jail, Burlington, Kentucky.

Background

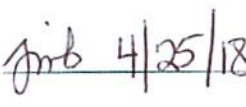

Inspections of the Boone County Jail revealed a deficiency concerning the facility's failure to post emergency plans with accessible building/room floor plans and directional arrows or area specific exit diagrams within the secure area of the facility.

Discussion

A corrective action is not available because The Boone County Jail is also held accountable to the Kentucky State Jail Standards/Regulations which do not allow the postings of the emergency exit diagrams with accessible building/floor plans and directional arrows within the secure area of the facility. The Kentucky State Jail Standards state that it is a security concern to post a diagram and floor plan of the facility that describes the most expeditious exit plan for a secure facility because they consider it an escape plan/route for the detainees.

Recommendation

I recommend authorization of a waiver for the Boone County Jail, Kentucky relating to Environmental Health and Safety Standard: section (III)(1)(3)(g)(h) within the 2000 NDS, due to the requirements of the Kentucky State Jail Standards and the security concerns of the facility.
