Significant Incident Summary Worksheet

For Nakamoto to complete its review of your facility, the following information <u>must be completed</u> prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE' detainees at your facility.

| Incidents | Description | Jan – Mar | Apr – Jun | Jul – Sept | Oct – Dec |

All findings (Deficient and At-Risk) require written comment describing the finding and what is necessary to meet compliance.

LCI Review Assurance Statement

By signing below, the Lead Compliance Inspector (LCI) certifies that all findings of noncompliance with policy or inadequate controls contained in the Inspection Report are supported by evidence that is sufficient and reliable. Furthermore, findings of noteworthy accomplishments are supported by sufficient and reliable evidence. Within the scope of the review, the facility is operating in accordance with applicable law and policy, and property and resources are efficiently used and adequately safeguarded, except for the deficiencies noted in the report.

Comments: The Sexual Abuse and Assault Prevention and Intervention Standard was inspected during this inspection but is not referenced in the Standards Review Summary Report. The Standard was rated as Meets Standard for this inspection. There were no sexual abuse or assault allegations during this inspection period.

There were no deaths or suicide attempts by an ICE detainee during this inspection period. There were no hunger strikes.

There was one immediate use of force incident involving an ICE detainee during this inspection period. All documentation for this incident was reviewed as part of this inspection. The deputies restrained a detainee who had assaulted a staff member and placed him in handcuffs. No chemical agents or Tasers were used and there were no staff or detainee injuries. The after-action review indicated staff followed policy.

The facility authorizes the use of Tasers by trained certified staff. Oleoresin capsicum/pepper spray is authorized for use on ICE detainees by trained staff members. Some staff were observed carrying OC/CN chemical restraint, Freeze + P. The facility authorizes use of this product which is not authorized by the standard. They are currently transitioning to all OC spray and will discontinue Freeze+P once the transition is complete.

The sheriff's department has canine units for drug detection but they have not been used during this inspection period. If they are used in the future, they would not be used in the presence of detainees. A deputy armed with a shotgun with less than lethal rounds,

beanbags, is posted outside the facility recreation yard on an observation platform during periods when detainees are in the outdoor recreation yard. There were no escapes or escape attempts during this inspection period.
