Significant Incident Summary Worksheet

For The Nakamoto Group to complete its review of your facility, the following information must be completed prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE' detainees at your facility.

Recommended Rating:

- Meets Standards**
 Does Not Meet Standards

Comments: This inspection was conducted to determine overall compliance with the ICE Performance-Based National Detention Standards (PBNDS 2011) which include the following additions/changes to the standards listed on page three:

- Medical Care (Women), a new standard, was rated Not Applicable;
- Classification System is now titled Custody Classification System;
- Suicide Prevention and Intervention is now titled Significant Self-Harm and Suicide Prevention and Intervention;
- Escorted Trips for Non-Medical Emergencies is now titled Trips for Non-Medical Emergencies;
- News Media Interviews and Tours is now titled Interviews and Tours, and;
- Transfer of Detainees is now titled Detainee Transfer.

There were thirteen reported incidents of alleged sexual abuse or assault during the inspection period. All of the allegations involved detainee on detainee behavior; six were found to be substantiated. Investigations and actions taken were in accordance with the requirements of the standard.

There were no escapes, deaths or serious suicide attempts during the inspection period. The facility may use canines for contraband detection but never in the presence of ICE detainees. The only chemical agent in the facility is OC (oleoresin capsicum)/pepper spray. The use of unsafe types of force such as choke holds, carotid control holds and neck restraints are not authorized. Tasers are not used.

During the inspection period there were nine use-of-force incidents involving ICE detainees; seven incidents involved immediate uses of force; one incident involved an accidental discharge of OC which struck a detainee; and one incident involved a calculated use of force. The review of the use-of-force documentation substantiated that in all incidents the force used was reasonable and appropriate

for the situation and medical examination and treatment was prompt. Additional details regarding the uses of force may be found in the remarks at the end of the Use of Force and Restraints checklist.
