### **Significant Incident Summary Worksheet**

For The Nakamoto Group to complete its review of your facility, the following information must be completed prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE detainees at your facility.

**Recommended Rating:**       **Meets Standards**  
 **Does Not Meet Standards**

**Comments:**      This inspection was conducted to determine overall compliance with the ICE Performance-Based National Detention Standards 2011 (42 standards), which include the following additions/changes to the standards listed on page three:

- Medical Care (Women), a new standard, was rated Meets Standard;
- Classification System is now titled Custody Classification System;
- Suicide Prevention and Intervention is now titled Significant Self-Harm and Suicide Prevention and Intervention;
- Escorted Trips for Non-Medical Emergencies is now titled Trips for Non-Medical Emergencies;
- News Media Interviews and Tours is now titled Interviews and Tours, and;
- Transfer of Detainees is now titled Detainee Transfers

The figures on page one and page two of this SIS report only represent ICE detainees. There were no deaths, serious suicide attempts, or hunger strikes involving ICE detainees during the inspection period. ICE detainees are not charged a medical co-pay.

There were seven sexual assault or abuse allegations of male detainee on male detainee; and one sexual assault or abuse allegation of female detainee on female detainee reported during this inspection period. Following an investigation of each incident, seven were unsubstantiated and one remains under investigation. There were no allegations of staff-on-detainee sexual assault or abuse.

There was one calculated use of force reported during this inspection period. The incident involved a female detainee who had passively resisted being removed from the facility. A team of female officers was assembled to remove her from her bunk and escort her to intake. The detainee was lifted from her bunk and placed in a wheelchair. The incident was videotaped in accordance with policy. Medical staff were present throughout the incident and determined there were no injuries to the detainee or officers.

There was one escape during this inspection period. A detainee scaled a recreation yard fence, went over a second barrier fence, and used a crossbar support to gain access to the top of the perimeter wall. He then dropped to the ground and then went over a five-foot fence near the maintenance building. The detainee has not been apprehended. Since that incident, additional razor wire has been added to the recreation yard fence and the crossbar has been removed.

The facility does not have Tasers or a restraint chair. Four/five point restraints are not used at the facility. The facility does not have a canine unit. When a canine unit is deployed, they are not used in the presence of ICE detainees. The only chemical agent approved for use is oleoresin capsicum (OC)/pepper spray. The facility does not use or train staff in the use of unsafe types of restraints.
