Significant Incident Summary Worksheet

For The Nakamoto Group to complete its review of your facility, the following information must be completed prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE' detainees at your facility.

Comments: The Sexual Abuse and Assault Prevention and Intervention Standard was inspected during this inspection but is not referenced in the Detention Standards Review Summary Report. The standard was rated as Meets Standard for this inspection.

The Significant Incident Summary Worksheet Summary represents data on ICE detainees only. There were no hunger strikes, escapes, deaths, or serious suicide attempts involving ICE detainees during this inspection period.

There were no sexual assault allegations reported during this inspection period.

There were three immediate use-of-force incidents involving the same ICE detainee during the inspection period. On 5/11/2019 the detainee refused several orders by staff to remove a towel wrapped around his head. He continuously refused orders by staff and was eventually taken to special management housing (SMU). Upon arriving to SMU, the detainee refused to enter the cell that he was being assigned to. He became agitated and attempted to push staff. The detainee was placed in hand restraints and escorted into his assigned cell without further incident. There were no injuries as a result of this incident. On 5/14/2019 the detainee became disruptive and was demanding to immediately see a doctor. Staff attempted to calm the detainee but the detainee would not comply and started to harm himself by tying a sock around his neck to the point of slowing his breathing and circulation. Deputies immediately entered his cell, removed the sock from his neck, placed hand restraints on the detainee and escorted him to a restraint chair. Medical staff examined the detainee and placed him on suicide watch. There were no injuries to the detainee or staff. On 6/12/2019, the same detainee, while on suicide watch, started striking his head on the cell door in SMU. The detainee ignored all orders to stop hurting himself so he was removed from his cell and placed in a restraint chair. Medical staff performed an assessment and treated an abrasion on the detainee's head. There were no injuries to staff. The reviews indicated that the force used in all three incidents was necessary and not excessive.

Tasers are approved for carry by supervisors at this facility and may be used on ICE detainees, if needed. Canines may be used for contraband detection but not in the presence of ICE detainees. While staff are trained in use of Oleoresin Capsicum (OC)/pepper spray, it is not carried by staff. Only approved use-of-force techniques are authorized.
