Comments: The Sexual Abuse and Assault Prevention and Intervention Standard was inspected during this inspection but is not referenced in the Detention Standards Review Summary Report. The standard was rated as Meets Standard for this inspection.

The Significant Summary Worksheet Summary represents only ICE detainees. There were no hunger strikes, deaths, serious suicide attempts, or escapes involving ICE detainees during the inspection period.

There were three allegations of detainee-on-detainee sexual assault or abuse during the inspection period; all of which were determined to be unfounded. In all cases, the reporting, investigation, and documentation were handled as required by the standard. Potential victims were protected accordingly.

There were ten physical responses to detainee resistance during the inspection period; nine of which involved the same detainee. All responses were reviewed and all involved the placement of the detainees in the restraint chair to prevent self-harm; no placement was longer than two hours in duration. All responses were justified and the amount of force was appropriate. Medical assessments were completed as required and there were no injuries. After-action reviews were conducted as per the standard.

The facility does not have Tasers. The facility does not have a canine unit. The chemical agent O.C. is approved for use on ICE detainees. Unsafe types of force such as choke holds, carotid control holds, and neck restraints are not authorized.
