Significant Incident Summary Worksheet

For Nakamoto to complete its review of your facility, the following information <u>must be completed</u> prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE' detainees at your facility.

Comments: The Sexual Abuse and Assault Prevention and Intervention Standard was inspected during this inspection but is not referenced in the Standards Review Summary Report. The standard was rated Meets Standards during this inspection.

The information provided on the Significant Incident Summary Worksheet includes the ICE detainee population only. During this inspection period, ICE detainees were housed in this facility from May 2018 through August 2018. Since the last inspection, no ICE detainee communicated a SAAPI allegation. There were two non-ICE detainee allegations. One allegation involved an inmate-on-inmate incident, which was unsubstantiated. There was one staff-on-inmate allegation which remains "open pending investigation".

There were no serious suicide attempts, escapes, detainee hunger strikes, nor use-of-force incidents.

Choke holds, carotid control holds and neck restraints are prohibited. The facility does not use Tasers. Canines are never used in the presence of ICE detainees. Oleoresin capsicum (OC) is authorized for use by trained officers.
