Significant Incident Summary Worksheet

For Nakamoto to complete its review of your facility, the following information <u>must be completed</u> prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE detainees at your facility.

Comments: The Sexual Abuse and Assault Prevention and Intervention Standard was inspected during this inspection, but is not referenced in the Detention Standards Review Summary Report. The standard was rated as Meets Standard for this inspection.

The Significant Summary Worksheet Summary represents data for ICE detainees only. There were no deaths, serious suicide attempts, hunger strikes or escapes involving ICE detainees during this inspection period. ICE detainees are not charged a medical co-pay.

There were thirteen reported sexual assault allegations reported during this inspection period. Only one involved an ICE detainee who claimed he had been sexually harassed at his previous facility. Of the twelve allegations that did not involve ICE detainees, seven were unfounded, four were unsubstantiated and one was substantiated. Evaluation of the standard was based on review of policy and procedures, logs, curriculum, postings, and training documentation and personnel interviews.

There were two immediate use of force incidents involving an ICE detainee during this inspection period. On 1/17/2018 two ICE detainees were fighting. Two officers responded and had to physically separate them. They were restrained and evaluated by medical and placed in segregation status. On 4/30/2018 an ICE detainee created a disturbance and refused to be restrained. He was taken to the ground, restrained and escorted to a cell where he refused to have the restraints removed. After repeated verbal attempts, he complied.

Form G-324A SIS (Rev. 7/9/07)

Both incidents received immediate medical attention and after-action reviews. The reviews indicated that the force used in both incidents was necessary and not excessive.

The facility does have Tasers; policy prohibits their use on an ICE detainee. The facility has and uses a restraint chair. Four/five-point restraints are not used at the facility. The facility does not have a canine unit. When a canine unit comes on grounds they are not used in the presence of ICE detainees, per policy. The only chemical agent approved for use is oleoresin capsicum (OC)/pepper spray. The facility does not use or train staff in the use of unsafe types of restraint.
