**Type of Inspection**

This is a scheduled annual inspection which is performed to determine overall compliance with the ICE PBNDS 2011 for Over 72-hour facilities. The facility received a rating of Meets Standards during the April 2021 inspection.

**Inspection Summary**

The Florence Service Processing Center is currently accredited by:
- The American Correctional Association (ACA) - Yes
- The National Commission on Correctional Health Care (NCCHC) - Yes
- The Joint Commission (TJC) - No
- Prison Rape Elimination Act (PREA) - Yes

**Standards Compliance**

The following information is a summary of the standards that were reviewed and overall compliance that was determined as a result of the 2021 and 2022 annual inspections:

The inspection team identified five (5) deficient components in the following four (4) standards:

- Special Management Units – 1
- Staff-Detainee Communication – 2
- Use of Force and Restraints – 1
- Correspondence and Other Mail – 1

Facility Snapshot/Description

The Florence Service Processing Center (SPC) is a [Blank] bed facility owned and operated by Immigration and Customs Enforcement. The facility is located 61 miles southeast of Phoenix in Pinal County, Arizona. Due to COVID-19 protocols, the SPC is required to maintain a capacity of [Blank] detainees. The facility houses male ICE detainees with low and medium-low classification designations.

General population housing consists of eight single-story dormitories. Detainees are housed in either person direct supervision living units or person indirect supervision living units. Each unit is staffed by contract security officers to include, at a minimum, one control officer and one housing unit officer. The special management unit contains [Blank] cells. A large recreation yard offers covered and uncovered areas of approximately [Blank] square feet. A basketball court, sand volleyball area, running/walking track, and an open area with artificial grass used for soccer matches is available. Each housing unit dayroom area is equipped with tables, chairs, televisions, board games, microwave ovens and vending machines. Telephones are located in the housing units and outdoor recreation areas. Detainee wristbands and uniforms are color-coded according to classification. The facility maintains three courtrooms for the Executive Office of Immigration Review (EOIR). Electronic tablets are available for communicating with staff. Tablets may be used for video visitation (for a fee), movies, games, reading materials and limited LexisNexis access.

Four dormitories were on cohort status on day one of the inspection. On day three of the inspection, five housing units were on cohort status. The facility has initiated an aggressive sanitation program. Sanitation throughout the facility was observed to be excellent. Detainees were observed to be relaxed and readily spoke to the inspectors informally during tours of the facility. No less than 28 detainees were interviewed informally. Ten formal interviews were completed. One detainee was interviewed formally in the special management unit. Five of the formal interviews were conducted using the Language Line. Detainees, without exception, stated they felt safe and were being treated well. Detainees were satisfied with medical services (with one exception highlighted in the next paragraph), food services, telephone services, recreation and availability of ICE personnel.

One detainee complained that he had an ingrown toe nail and needed a tooth pulled. The Medical SME reviewed the detainee medical record. The detainee is already scheduled to see an oral surgeon for tooth removal as he was informed previously. He is being treated for a toenail issue, but is "notoriously non-
compliant" with the treatment he is being offered. The detainee was asked if he had submitted his concern to the Office of Inspector General. He did not.

Detention officers were observed to be professional in appearance and demeanor and their interactions with the detainees were cordial and appropriate.

Prior to COVID-19 protocols, the facility offered contact visitation; however, due to COVID-19 all general visitation has been suspended. Each week, detainees are provided with 130 minutes of free telephone service to maintain contact with family and friends. This SPC is committed to the Phased Return to Social Visitation Plan. All detainees are provided free postage.

The facility does not charge co-pays for medical, mental health, or dental services. Health services are provided by IHSC. STG International provides contract medical services. Akima Global Services, LLC (AGS) provides contract security services, food services and transportation services. Satellite Services Incorporated (SSI) provides facility maintenance. Headquarters ICE/ERO Facilities Management oversees the SSI contract.

Areas of Concern/Significant Observations

The inspection was conducted as a hybrid. Four inspectors conducted the inspection on-site. The other inspector was unable to personally observe practices and procedures within the facility but was able to interview staff and review files. Optimal levels of compliance were identified in Medical Care, Use of Force, Admission and Release, Telephone Access, Law Libraries and Legal Materials, and Special Management Units.

Recommended Rating and Justification

The Lead Compliance Inspector recommends that the facility receive a rating of Meets Standards. The facility complies with the ICE Performance-Based National Detention Standards (PBNDS) 2011. No (0) standard was found Does Not Meet Standards and two (2) standards were Not Applicable (N/A). All remaining forty-one (41) standards were found to Meet Standards.

LCI Assurance Statement

The findings of compliance and noncompliance are accurately and completely documented on the G-324 Inspection Form and are supported by documentation in the inspection file. An out brief was conducted telephonically and in addition to the entire Nakamoto Group, Inc. Inspection Team, the following participated:

- ICE Officials
- Contract Services
- IHSC Staff
