Comments: The Sexual Abuse and Assault Prevention and Intervention Standard was inspected during this inspection, but is not referenced in the Detention Standards Review Summary Report. The standard was rated as Meets Standard for this inspection.

There was one allegation of sexual abuse or assault during this inspection period involving one ICE detainee. The allegation was investigated and determined to be unsubstantiated. The potential victim was protected, the report and investigation were documented appropriately, and all procedures were conducted within the parameters of the standard.

There was one immediate physical response to detainee resistance involving an ICE detainee during the inspection period. The detainee made a threatening gesture towards an ICE officer and a facility housing unit officer took the detainee to the floor in response. The after-action review concluded that force was applied within guidelines of the standard. Medical services were engaged immediately and there were no serious injuries.

There were no deaths, serious attempted suicides, escapes, or attempted escapes during this inspection period. The facility has Tasers but they are not deployed on ICE detainees. Detection canines may be deployed in the facility, but not in the presence of ICE detainees. Chemical agents are carried by all trained staff and may be deployed on ICE detainees.

The incident graph on page two represents ICE detainees only.
