Significant Incident Summary Worksheet

For Nakamoto to complete its review of your facility, the following information <u>must be completed</u> prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE' detainees at your facility.

Comments: The Sexual Abuse and Assault Prevention and Intervention Standard was inspected during this inspection but is not referenced in the Standards Review Summary Report. The Standard was rated as Meets Standard for this inspection.

There were no allegations of sexual assault or abuse involving an ICE detainee during this inspection period.

There were no escapes, deaths or serious suicide attempts during the inspection period. The facility does not have a canine unit for contraband detection. The only chemical agent in the facility is OC (oleoresin capsicum)/pepper spray. The use of unsafe types of force such as choke holds, carotid control holds and neck restraints are not authorized. Tasers are used.

There were two immediate uses of force involving ICE detainees and no calculated uses of force during the inspection period. The detainees involved were examined by medical staff immediately subsequent to both incidents. No injuries were sustained by either detainees or staff. It was determined that staff followed policy in both incidents. The uses of force were appropriately documented and reviewed by command staff. In one of the incidents, a Taser was used to subdue a detainee when he refused to comply with staff orders and the application of lesser use of force technique was unsuccessful in gaining control of the situation.

The information reported on page 2, the Significant Incident Summary Worksheet, pertains only to ICE detainees.
