Significant Incident Summary Worksheet

For Nakamoto to complete its review of your facility, the following information <u>must be completed</u> prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE detainees at your facility.

Incidents	Description	Jan – Mar	Apr – Jun	Jul – Sept	Oct – Dec

All findings (Deficient and At-Risk) require written comment describing the finding and what is necessary to meet compliance.

LCI Review Assurance Statement

By signing below, the Lead Compliance Inspector (LCI) certifies that all findings of noncompliance with policy or inadequate controls contained in the Inspection Report are supported by evidence that is sufficient and reliable. Furthermore, findings of noteworthy accomplishments are supported by sufficient and reliable evidence. Within the scope of the review, the facility is operating in accordance with applicable law and policy, and property and resources are efficiently used and adequately safeguarded, except for the deficiencies noted in the report.

Comments: The Sexual Abuse and Assault Prevention and Intervention Standard was inspected during this inspection but is not referenced in the Detention Standards Review Summary Report. The standard was rated as Meets Standard for this inspection.

The Significant Incident Summary Worksheet represents data on ICE detainees only. There were no deaths involving ICE detainees during this inspection period. ICE detainees are not charged a medical co-pay. Due to the recent change in the private health care provider, there was no information on serious suicide attempts or hunger strikes.

Tasers and chemical agents are available and will be used on ICE detainees if necessary. Detection canines are used, but not in the presence of ICE detainees. There were no escapes in the past year.

There were three immediate physical responses to detainee resistance during the inspection period. Two incidents involved the same detainee, who on both occasions refused to follow orders. The other incident involved a detainee assault on a corrections officer. All applications of force were justified, appropriate, and applied only for the duration necessary to control the incident. After-action reviews occurred as required. All parties were evaluated by medical staff and there was one injury: that being the corrections officer who was assaulted, who sustained minor injuries.

There were two allegations of sexual assault or abuse involving three ICE detainees. Both allegations were considered as "not sustained", which the SAAPI Coordinator explained is the term used when the facility cannot determine whether an incident occurred

or not. In one incident, a female non-ICE detainee complained that a female ICE detainee kissed her and touched her buttocks. The other allegation was made by a female ICE detainee who stated that another female ICE detainee asked to see her breasts. In both situations, victims were protected, the investigation was conducted, and the incident was documented as required. The one misstep that occurred was that a corrections officer started investigating the kissing incident prior to involving the SAAPI Coordinator or any supervisor. Once the incident came to the attention of a supervisor, the proper investigative protocol was adhered to.

Information was not provided by the facility for F. and J.
