Significant Incident Summary Worksheet

For the Nakamoto Group to complete its review of your facility, the following information must be completed prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE' detainees at your facility.

Comments: There were seven ICE detainee allegations of sexual abuse or assault in the last twelve months. Six allegations were detainee on detainee and one staff on detainee allegation. All of the allegations were investigated and one case was unfounded, five were not sustained and one exonerated. The allegation against the staff member was not sustained. Policy and procedures ensure timely and appropriate responses, evaluation, treatment and notification to ICE officers regarding all SAAPI allegations.

There were twelve uses of force involving ICE detainees. Of those instances, one was a calculated use of force and eleven were immediate uses of force. The calculated use of force was a cell extraction with the application of Oleoresin Capsicum (OC) spray. The use of force report indicated that force was applied per standard guidelines. However, the facility was not able to produce the video of the incident. A note in the use of force file indicated that the video could not be located. Two of the immediate uses of force involved detainees' refusal to obey a directive resulting in the application of OC spray. The remaining nine uses of force were for refusal to obey a directive. All reports indicated that force was applied within guidelines of the standard. The medical evaluations were timely. The five detainees who suffered minor injuries were treated by the medical staff.

The facility does not use Tasers and canines are not allowed in the facility. There have been no deaths, escapes or suicide attempts by an ICE detainee during this inspection period.
