Facility Snapshot/Description

The Jerome Combs Detention Center (JCDC) is located approximately sixty miles southeast of Chicago in Kankakee, Illinois. Adult male ICE detainees of all custody levels, adult male U.S. Marshals Service detainees, and adult male Kankakee County inmates are housed at the detention center. [REDACTED]

The facility was described by the corporal as a one single story building. The perimeter of the facility is comprised of the exterior walls of the building. An armed officer foot patrols the entire perimeter once each shift. The exterior doors of the building are alarmed and accessed by restricted keys. Master control officers monitor the perimeter through a series of fixed and pan/tilt surveillance cameras. The interior of the jail is observed by a surveillance camera network which provides sight lines to all movement in corridors, housing units, and common areas. All movement is escorted.

The facility has eleven housing units including nine units (pods) for general population and two special management units (SMU). The general population housing units are comprised of three twenty to 48-bed dormitories and six units with twelve to 28 two-bed cells. The two SMUs each have eight single-bed cells. ICE detainees are not housed with other jurisdictions. Photo images confirmed that each general population housing unit has a dayroom which contains a television, a sufficient number of telephones, video visitation stations, electronic tablets (with e-mail capability); and a kiosk for ordering commissary, filing requests, and accessing announcements and bulletins. There is no outdoor recreation. Indoor recreation is offered daily.

Sixteen detainees were interviewed during the remote inspection. A language line assisted in the communication with non-English speaking detainees. Detainees indicated general satisfaction with their living area, conditions of confinement, safety, treatment by staff, and ICE officer availability. Three detainees requested larger meal portions, while another stated that the food was "bland." One detainee indicated he was concerned because he has chronic diseases and is worried about COVID-19. The detainee was referred to the HSA, who planned to answer his questions. One detainee indicated that his "dental fillings" had been broken during a cell search and he had not been able to get new ones. Follow up with the HSA and review of the medical record confirmed that the detainee was receiving timely and appropriate care from the dentist and medical staff.

Several detainees stated that the law library was available upon request and that program services were "fine". When asked about cleanliness, the majority of detainees indicated that the facility is clean. Photo

images confirmed that the housing unit was maintained in an acceptable level. All detainees were asked if they had tried to contact the OIG hotline.

Food service is provided by The Country Table (catering vendor) and Kankakee County employees. All other services are provided by county employees. There is no medical co-pay.

Areas of Concern/Significant Observations

There were no areas of concern or significant observations from this remote inspection. Photo and video images were used to facilitate observations during the inspection.

Recommended Rating and Justification

The Lead Compliance Inspector recommends that the facility receive a rating of Meets Standards unless unobserved practices and conditions are contrary to what was reported to the inspection team. The facility complies with the ICE National Detention Standards (NDS). No (0) standards were found Does Not Meet Standard and one (1) standard was Not Applicable (N/A). All remaining thirty-eight (38) standards were found to Meet Standards.
