## **Significant Incident Summary Worksheet**

For Nakamoto to complete its review of your facility, the following information <u>must be completed</u> prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE detainees at your facility.

Incidents	Description	Jan – Mar	Apr – Jun	Jul – Sept	Oct – Dec

All findings (Deficient and At-Risk) require written comment describing the finding and what is necessary to meet compliance.

## **LCI Review Assurance Statement**

By signing below, the Lead Compliance Inspector (LCI) certifies that all findings of noncompliance with policy or inadequate controls contained in the Inspection Report are supported by evidence that is sufficient and reliable. Furthermore, findings of noteworthy accomplishments are supported by sufficient and reliable evidence. Within the scope of the review, the facility is operating in accordance with applicable law and policy, and property and resources are efficiently used and adequately safeguarded, except for the deficiencies noted in the report.

Comments: The Sexual Abuse and Assault Prevention and Intervention Standard was inspected during this inspection but is not referenced in the Detention Standards Review Summary Report. The standard was rated as Meets Standard for this inspection.

The Significant Incident Summary Worksheet represents data on ICE detainees only, per the AOIC. There were no deaths, serious suicide attempts, hunger strikes, sexual assault allegations, or escapes involving ICE detainees during this inspection period. ICE detainees are not charged a medical co-pay.

There were five uses of force involving ICE detainee during this inspection period. All five incidents were immediate uses-of-force; with one resulting in the use of the restraint chair. The restraint chair was used for the detainee's safety due to his erratic behavior and doing self-harm by hitting his head on and kicking the door. The other immediate uses-of-force were the result of detainees refusing orders and/or pulling away from officers. There were no injuries in any of these incidents to the detainee or staff involved. Only the least amount of force necessary to control the situation was used. Each incident was reviewed by the shift supervisor and the OIC.

The facility does have Tasers; however, policy prohibits their use on ICE detainees. The facility does have and uses a restraint chair. Four/five point restraints are not used at the facility. The facility does not have a canine unit but does permit their use; however, per policy when a canine unit comes on grounds they are not used in the presence of ICE detainees. No chemical agents are approved for use at this facility. The facility does not use or train staff in the use of unsafe types of restraint.
