### **Significant Incident Summary Worksheet**

For The Nakamoto Group to complete its review of your facility, the following information must be completed prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE' detainees at your facility.

**Recommended Rating:**       **Meets Standards**  
 **Does Not Meet Standards**

**Comments:**      This inspection was conducted to determine overall compliance with the ICE Performance-Based National Detention Standards (PBNDS 2011) which include the following additions/changes to the standards listed on page three:

- Medical Care (Women), a new standard, was rated Meets Standard;
- Classification System is now titled Custody Classification System;
- Suicide Prevention and Intervention is now titled Significant Self-Harm and Suicide Prevention and Intervention;
- Escorted Trips for Non-Medical Emergencies is now titled Trips for Non-Medical Emergencies;
- News Media Interviews and Tours is now titled Interviews and Tours, and;
- Transfer of Detainees is now titled Detainee Transfer.

There were four allegations of sexual abuse/assault since the last inspection. All allegations were made by male detainees and were referred to ICE OPR and the Montgomery County Sheriff's Office. The first involved one detainee inappropriately touching three other detainees. This allegation was unsubstantiated. The second involved one detainee inappropriately touching another detainee. This allegation was unsubstantiated. The third involved one detainee sexually harassing another detainee. This allegation was substantiated by ICE OPR and unsubstantiated by the Sheriff's office. The fourth involved a detainee reporting sexual assault by a staff member (a staff member placed his hand on the detainee's arm in the visiting room) The detainee filed this report after he was deported. This allegation is currently under investigation.

There were no escapes or deaths during the inspection period. The facility does not have a canine unit for contraband detection. The only chemical agent in the facility is OC (oleoresin capsicum)/pepper spray. The use of unsafe types of force such as choke holds, carotid control holds and neck restraints are not authorized. Tasers are not used.

There were three use of force incidents during the inspection period. Two were spontaneous uses of force which consisted of the non-routine application of restraints for fighting and refusing to stop when ordered. The detainees were escorted to medical services immediately and no injuries were recorded. One calculated use of force was the result of a detainee refusing to come out of a hold room for transfer when ordered. After several attempts to persuade him, a team was assembled and the detainee was forcibly placed on a transport vehicle. He was examined by a medical professional, prior to departure, and no injuries were noted. All incidents were reviewed as required by the standard and the reviews indicated that the force was necessary, appropriate and not excessive.

The facility reported one serious suicide attempt during the inspection period. On 8/5/2018, a 61-year-old Hispanic male was found on his bed with a laceration to his neck. He was transported to the hospital and returned with sutures and placed on suicide watch.
