## Significant Incident Summary Worksheet

For Nakamoto to complete its review of your facility, the following information <u>must be completed</u> prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE' detainees at your facility.

Incidents	Description	Jan – Mar	Apr – Jun	Jul – Sept	Oct – Dec
Assault:	Types (Sexual <sup>2</sup> , Physical, etc.)	1 PHY	2 PHY	0	1 PHY

All findings (Deficient and At-Risk) require written comment describing the finding and what is necessary to meet compliance.

## **LCI Review Assurance Statement**

By signing below, the Lead Compliance Inspector (LCI) certifies that all findings of noncompliance with policy or inadequate controls contained in the Inspection Report are supported by evidence that is sufficient and reliable. Furthermore, findings of noteworthy accomplishments are supported by sufficient and reliable evidence. Within the scope of the review, the facility is operating in accordance with applicable law and policy, and property and resources are efficiently used and adequately safeguarded, except for the deficiencies noted in the report.

Comments: The PBNDS 2011 Sexual Abuse and Assault Prevention and Intervention Standard was inspected during this inspection but is not referenced in the Standards Review Summary Report. The Standard was rated as Meets Standard for this inspection. There were no allegations of sexual abuse or assault involving ICE detainees during the inspection period.

There were no detained deaths and no serious suicide attempts during the inspection period. There were no escapes. Oleoresin Capsicum (OC) spray is authorized for use by trained officers. The facility has one Taser but it is specifically restricted from use on ICE detainees. Canines have not been used in the facility during this inspection period. Choke holds or other unauthorized restraint techniques are not used.

There were four immediate physical responses to detainee resistance involving ICE detainees during the inspection period. All involved the detainee refusing movement orders and staff direction subsequent to those orders. The Security SME confirmed that force was applied within the guidelines of the standard; with one exception. In that incident, the review process determined that the response was justified but that the employee used poor judgement in the application. Medical care was conferred in a timely fashion in all incidents. One detainee received a cut to her head during an incident, which required eight stitches; otherwise, there were no serious injuries. All incidents were reviewed by an after-action review team.

The statistics reported on the Significant Incident Summary Worksheet are for ICE detainees only.
