Significant Incident Summary Worksheet

For Nakamoto to complete its review of your facility, the following information <u>must be completed</u> prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE' detainees at your facility.

Comments: The Sexual Abuse and Assault Prevention and Intervention Standard (SAAPI) was inspected during this inspection but is not referenced in the Standards Review Summary Report. The Standard was rated as Meets Standard for this inspection.

There were no allegations of sexual assault or abuse during this inspection period. There were no deaths or serious suicide attempts involving an ICE detainee. There were no escapes or escape attempts during this inspection period.

Black jacks and sap gloves are not permitted for use by staff. Choke holds or other unauthorized restraint positions are not authorized. Staff that are authorized to use Oleoresin Capsicum (OC)/pepper spray are properly trained and certified. The facility uses an OC product, Freeze +P (CS). CS is not approved for use with detainees as per NDS 2000. The facility does not have a canine unit for drug detection. Canines are used periodically at the facility for drug detection but they are never used in the presence of detainees. Trained officers are authorized to use Tasers. Tasers will be used on ICE detainees.

There were no incidents involving calculated use of force on an ICE detainee. There was one incident involving immediate use of force on an ICE detainee. This incident involved an ICE detainee and a county inmate in a physical altercation. OC was used when they failed to respond to verbal orders to stop fighting. The detainees were separated and restrained. Once under control, detainees were taken to the medical area to be assessed and decontaminated. There were no serious injuries as a result of this incident.
