Significant Incident Summary Worksheet

For The Nakamoto Group to complete its review of your facility, the following information <u>must be completed</u> prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE' detainees at your facility.

Comments: The Significant Summary Worksheet Summary represents data on ICE detainees only. There were no deaths, serious suicide attempts, hunger strikes or escapes involving ICE detainees during this inspection period. ICE detainees are not charged a medical co-pay.

There were two allegations of sexual abuse/assault by ICE detainees during this inspection period. One allegation involved staff-on-detainee assault/abuse; after an investigation it was determined to be unsubstantiated. The other allegation involved a detainee-on-detainee abuse/assault and was determined to be unfounded.

There were two calculated uses of force involving ICE detainees during this inspection period. Both instances involved detainees refusing to obey an order. All reports indicated that force was applied within guidelines of the standard. The medical evaluations were timely. No detainees or staff were injured.

The facility does not have Tasers or a canine unit. If a canine unit is brought into the facility, they will not be used in the presence of ICE detainees. The facility does not have a restraint chair but four/five-point restraints are authorized for use. The chemical agents approved for use are OC/pepper spray and CS/tear gas. The facility does not use or train staff in unsafe types of restraint.
