Significant Incident Summary Worksheet

For Nakamoto to complete its review of your facility, the following information <u>must be completed</u> prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE detainees at your facility.

Comments: The Sexual Abuse and Assault Prevention and Intervention Standard was inspected during this inspection but is not referenced in the Detention Standards Review Summary Report. The standard was rated as Meets Standard for this inspection.

ICE detainees are not charged a medical co-pay. There were no ICE detainee deaths during this inspection period. There were no serious suicide attempts during the inspection period. There were two hunger strikes by the same detainee during the inspection period. The details are included in the Hunger Strikes Standard end remarks.

Chemical agents are available but are not deployed on ICE detainees. Canines are not utilized. There were no escapes in the past year. There were four physical responses to detainee resistance during the inspection period although more reports were filed documenting the routine application of restraints per the facility policy. Three of the responses were planned and one was immediate. In all incidents, the force deployed was necessary and appropriate and used only for the period necessary to control the situation. After-action reviews were completed as required by the standard.

There were two allegations of sexual assault or abuse involving six male ICE detainees and one male non-ICE detainee. One involved four ICE detainees allegedly sexually assaulting another ICE detainee. The incident was unfounded. The other involved an ICE detainee and a non-ICE detainee in the separate recreation areas of the SMU. The non-ICE detainee exposed himself to the ICE detainee during a verbal altercation. This incident was confirmed and the non-ICE detainee was disciplined. In both cases, the appropriate precautions were taken for the alleged victim, the investigation was conducted, and the incident was documented as required.

The Significant Incident Summary Worksheet is data on ICE detainees only.
