Significant Incident Summary Worksheet

For The Nakamoto Group to complete its review of your facility, the following information must be completed prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE' detainees at your facility.

Comments: This inspection was conducted to determine overall compliance with the ICE Performance Based National Detention Standards (PBNDS 2008) and the Sexual Abuse and Assault Prevention and Intervention and Significant Self Harm and Suicide Prevention and Intervention Standards (PBNDS 2011).

There were no serious suicide attempts or detainee deaths since the previous inspection. There were two substantiated detainee allegations of detainee on detainee sexual assault since the previous annual inspection. Both cases were investigated by the Pennsylvania State Police and referred to the local District Attorney who did not prosecute either case. The perpetrator received internal disciplinary sanctions in both cases.

There were no escapes or serious attempts since the previous inspection. There were thirty uses of force, all immediate, involving ICE detainees during the inspection period. Most were created by refusing direct orders and being non-compliant. Oleoresin capsicum (OC) was applied during seven of the uses of force. During two of the uses of force, Tasers were also used. ICE was notified of each use of force and decontamination and medical attention immediately followed these incidents. No detainees were injured. A review of all of these incidents indicated that force was necessary, appropriate, and not excessive. Canines are not used to control ICE detainees but may be used out of the presence of detainees for contraband detection. The use of choke holds is prohibited.

The data on page two of the Significant Incident Summary Report is for the ICE population only.
