FY2013 data updated through 01/05/2013 (IIDS v 1.10 run date 01/07/2013; EID as of 01/05/2013) as provided by the Statistical Tracking Unit.

The Average Daily Population (ADP) is based on Midnight Count. A MANDAY is based on whether a SUBJECT is in a ERO detention facility for the midnight count. For every SUBJECT in a facility for the midnight count, that corresponds to one MANDAY. The ADP is the number of mandays for a given time period, divided by the number of days in that time period.

FY2013 detention data excludes ORR and MIRP facilities, as well as USM Prisoners.
