in 2011, the U.S. Immigration and Customs Enforcement ("ICE") revised its detention standards, which were published as Performance-Based National Detention Standards 2011 ("PBNDS 2011"). As part of the new standards, ICE provides and arranges for primary health care services to detained aliens in the custody of ICE. According to the PBNDS 2011, the following primary health care services are provided to detained aliens:

Upon request, appropriately trained medical personnel within their scope of practice shall provide detainees with non-directive (impartial) advice and consultation about family planning and birth control, and where medically appropriate, prescribe and dispense birth control. PBNDS 2011 at p. 258.

In the event continued detention is necessary and appropriate, and consistent with the practice of our federal partners, if the life of the mother would be endangered by carrying a fetus to term, or in the case of rape or incest, ICE will assume the costs associated with a female detainee's decision to terminate a pregnancy. In this instance, or in a situation where a female detainee opts to fund the termination of her pregnancy, ICE shall arrange for transportation at no cost to the detainee for medical appointment, and if

- 1) Total population of foreign students in the US. For example, in 2011 Open Doors reports 723,277.
- 2) The regions and countries these students are from. For example, in 2011 Open Doors reports 36,890 from Africa, and 7,148 from Nigeria. I am asking to see SEVIS data for all regions and all countries.

10/23/2012 1705 MATTHEW KISH PORTLAND BUSINESS JOURNAL copies of any records related to the investigation, including a copy of the notes taken during the interview with the agent on a 2006 GAO report entitled "Company Formations: Minimal Ownership Information Is Collected and Available" mentioned an ICE investigation that involved Oregon.

Here's what the report says:

"ICE officials also told us they have encountered the use of U.S. shell companies in their investigations. ICE officials interviewed a third-party agent who had registered approximately 2,000 companies for international clients. The registrations took place mostly in Oregon, but also in Arkansas, Colorado, Idaho, Iowa, Kentucky, Montana, South Dakota, Washington and West Virginia. The investigation was prompted by a bank that had reported suspicious transactions in an account of one of the companies registered by this agent. This case was subsequently closed because the agent moved from the area and could not be found ."
