STUDENT AND EXCHANGE VISITOR PROGRAM

## STUDENT AND EXCHANGE VISITOR INFORMATION SYSTEM

## SEVIS BY THE NUMBERS

GENERAL SUMMARY QUARTERLY REVIEW
AUGUST 2015

## HIGHLIGHTS

## GENERAL DATA

- There are currently 1.05 million F \& M students studying in the United States.
- There are currently $244,766 \mathrm{~J}-1$ exchange visitors in the United States.
- There are 8,887 U.S. schools certified by SEVP to enroll international students.
- Seventy-seven percent of SEVP-certified schools have 50 or less enrolled F \& M students.
- Seventy-four percent of all F \& M students are enrolled in bachelor's, master's or doctoral programs.
- There are $405,314 \mathrm{~F} \& \mathrm{M}$ students studying science, technology, engineering and mathematics (STEM) fields in the United States.
- Thirty-eight percent of all F \& M students in the United States are studying in STEM fields.
- Seventy-five percent of all F \& M STEM students are enrolled in engineering, computer and information sciences and support services, or biological and biomedical sciences degree programs.
- Twenty-four percent of all F \& M students studying at schools in the state of Texas are from India, followed by 17 percent from China.

## TRENDS

- Compared to February 2015, the total number of active J-1 exchange visitors in the United States increased 21.9 percent, from 200,779 exchange visitors in February 2015 to 244,766 exchange visitors in July 2015.
- Compared to February 2015, the total number of active F \& M students studying in the United States decreased 6.9 percent, from 1,132,636 students in February 2015 to 1,054,505 students in July 2015.
- Compared to February 2015, the total number of active F \& M students studying in primary or secondary programs decreased 33.0 percent, from 65,518 students in February 2015 to 49,250 students in July 2015.

## INTRODUCTION

## WHAT IS THE STUDENT AND EXCHANGE VISITOR PROGRAM (SEVP)?

The Student and Exchange Visitor Program (SEVP), a program within the U.S. Immigration and Customs Enforcement (ICE), acts as a bridge for government organizations that have an interest in information on nonimmigrants whose primary reason for coming to the United States is to be students.

On behalf of the U.S. Department of Homeland Security (DHS), SEVP manages schools, nonimmigrant students in the $\mathrm{F} \& \mathrm{M}$ visa classifications and their dependents.

The U.S. Department of State manages Exchange Visitor Programs, nonimmigrant exchange visitors in the $J$ visa classification and their dependents. Both SEVP and the Department of State use the Student and Exchange Visitor Information System (SEVIS) to track and monitor schools; exchange visitor programs; and F, M and J nonimmigrants while they visit the United States and participate in the U.S. education system.

## INTRODUCTION

## WHAT IS THE STUDENT AND EXCHANGE VISITOR INFORMATION SYSTEM (SEVIS)?

SEVIS is the Web-based system that DHS uses to maintain information on SEVP-certified schools and the F \& M students who come to the United States to attend those schools. SEVIS also maintains information on Department of State-designated exchange visitor program sponsors and J-1 visa exchange visitor program participants. It is a critical tool in SEVP's mission to protect national security while supporting the legal entry of the more than one million $\mathrm{F}, \mathrm{M}$ and J nonimmigrants to the United States for education and cultural exchange.

## INTRODUCTION

## WHAT IS SEVIS BY THE NUMBERS?

SEVIS by the Numbers is a quarterly report that highlights nonimmigrant student and exchange visitor trends and information using data from SEVIS, which SEVP uses to track and monitor the status and activities of nonimmigrant students and exchange visitors who enter the United States.

The report highlights key SEVIS data in an engaging way to illustrate trends, values and information on nonimmigrant students studying in the United States.

## DEFINITIONS

- Nonimmigrant - Person entering the United States to visit, study or work (depending on the type of visa) temporarily, but not to stay permanently in the United States.
- F-1 nonimmigrant student - Nonimmigrant status conferred on a student pursuing a full program of study in a college, university, seminary, conservatory, academic high school, private elementary school, other academic school or language training program in the United States that is SEVP-certified to enroll F and/or M students.
- M-1 nonimmigrant student - Nonimmigrant status conferred on a foreign national pursuing a full program of study at an SEVP-certified vocational school or other recognized non-academic school (other than in language training programs).
- J-1 exchange visitor - Foreign national selected by a Department of State-designated program to participate in an exchange visitor program.
- STEM - Science, technology, engineering and mathematics programs of study.

## GENERAL OVERVIEW

Since February 2015, the total number of SEVIS records for active F \& M students, exchange visitors and their dependents decreased by 2.53 percent, from 1,489,553 to 1,451,824. When compared to July 2014, the number of active F \& M students, exchange visitors and their dependents increased 7.92 percent, from 1,345,276 to 1,451,824.

TOTAL \# OF ACTIVE STUDENTS

| STUDENTS (F-1 \& M-1) AND EXCHANGE VISITORS (J-1) |  |  |  |
| :--- | :---: | ---: | ---: |
|  | JULY 2015 | FEBRUARY 2015 | \% CHANGE |
| F-1 \& M-1 | $1,054,505$ | $1,132,636$ | $-6.90 \%$ |
| J-1 | 244,766 | 200,779 | $+21.91 \%$ |
| DEPENDENTS | 152,553 | 156,138 | $-2.30 \%$ |
| COMPLETED | $2,413,757$ | $2,330,274$ | $+3.58 \%$ |
|  | SCHOOLS AND PROGRAMS |  |  |
|  | JULY 2015 | FEBRUARY 2015 | \% CHANGE |
| CERTIFIED SCHOOLS (F \& M) | 8,887 | 8,979 | $-1.02 \%$ |
| DESIGNATED PROGRAMS (J) | 1,448 | 1,444 | $+0.28 \%$ |

[^0]* J-1 - Active exchange visitor considered in J-1 status and participating in their program.
* Designated Programs - A J-1 program that is approved to accept exchange

## STUDENTS BY GENDER

How many male F \& M students

## come to the United States compared to females?

The below graph shows the United States' proportion of male versus female F \& M students from each region of the world.
of all F \& M students studying in the United States are male. Eastern Europe sends the most females ( 57 percent) and Western Asia the most males (77 percent).

[^5]sub-regions, and selected economic and other groupings.

STUDENTS BY STATE Which states host the highest population of F \& M students?

## 36\%

of all F \& M students study in CA, NY and TX.

| CONTINENT | DESTINATION |
| :--- | ---: |
| ASIA | CA: $18 \%$ |
| EUROPE | CA: $19 \%$ |
| AUSTRALIA \& PACIFIC <br> ISLANDS | CA: $17 \%$ |
| AFRICA | TX: $13 \%$ |
| NORTH AMERICA | NY: $14 \%$ |
| SOUTH AMERICA | FL: $19 \%$ |

## $\backsim$ SCHOOLS

## CERTIFIED SCHOOLS <br> Which SEVP-certified schools have the largest population of F \& M students per visa category?

## CERTIFIED SCHOOLS BY STATE <br> Which states have the highest population of SEVP-certified schools?

## 27\%

of all SEVP-certified schools are located within the states of CA, NY and FL.

and Customs

## LEVEL OF EDUCATION

## How many F \& M students study at each level of education?

## 74\%

of all F \& M students are enrolled in bachelor's, master's or doctoral programs.

# 33\% 

decrease in the number of all F \& M students enrolled in primary and secondary school programs since February 2015.

## TOP MAJORS

What are the most popular majors among F \& M students studying in the United States?

## 28\%

of all F \& M students enrolled in programs for parks, recreation, leisure, and fitness studies are from the United Kingdom and Canada.

## 25\%

of all F \& M students from China are enrolled in programs for business, management, marketing and related support services.

## STEM FIELDS OF STUDY

Science, technology, engineering and mathematics (STEM) are popular programs at American colleges and universities. Graduates from these programs are important to innovation and job creation in the United States.

An F-1 and/or M-1 student can find STEM programs at all educational levels. Many colleges and universities offer programs in these fields at both the undergraduate and graduate levels. Community colleges also have a variety of STEM programs in which a student may enroll.

STEM programs are classified according to the Classification of Instructional Programs codes developed by the U.S. Department of Education's National Center for Education Statistics.

## STEM STUDENTS, SCHOOLS AND FIELDS OF STUDY

How many F \& M STEM students are in the United States, and where and what do they study?

TOTAL \# OF STEM AND ALL F \& M STUDENTS

## PERCENT OF F \& M STEM STUDENTS IN THE UNITED STATES PER CONTINENT

## STEM STUDENTS BY STATE

Which states host the greatest population of F \& M STEM students?

## 32\%

of all F \& M STEM students study in CA, NY and TX.

TOP THREE STATES WITH LARGEST PERCENTAGE OF F \& M STEM STUDENTS

| STATE | \% of STEM STUDENTS |
| :--- | ---: |
| WYOMING | $63 \%$ |
| SOUTH DAKOTA | $61 \%$ |
| NEW MEXICO | $53 \%$ |

## STEM STUDENTS BY GENDER

## How many male F \& M students are in STEM fields in the United States compared to females?

The following graphs show the proportion of F \& M STEM male and female students versus all F \& M students from each region of the world.

## 66\%

of all F \& M students studying in STEM fields in the United States are male. The greatest percentage of female STEM students (47 percent) are from the Melanesia and the greatest percentage of male STEM students ( 84 percent) are from

Western Asia.
