6.1 Resident Handbook

Introduction
This U.S. Immigration and Customs Enforcement (ICE) Family Residential Standard requires that, upon admission, every resident be provided comprehensive written orientation materials that describe matters such as the Center’s rules and sanctions, mail and visiting procedures, grievance system, services, programs, food service, and medical care, in English, Spanish, and other languages as directed by the Field Office Director (FOD). Residents will acknowledge receipt of those materials. Centers may provide a local handbook, national handbook, or combination. Throughout this standard, “resident handbook” will refer to either the ICE national handbook, local supplement, or combination provided by the Center.

Various terms used in this standard may be defined in the ICE Family Residential Standard on Definitions.

Program Philosophy
The requirements of this standard must be implemented in accordance with the ICE Family Residential Standard on Program Philosophy, Goals, and Expected Outcomes.

A. Language Access and Disability Requirements
Centers will adhere to the language access and disability laws, regulations, responsibilities, requirements, and laws cited in the ICE Family Residential Standard on Program Philosophy, Goals, and Expected Outcomes and the ICE Family Residential Standard on Disability Identification, Assessment, and Accommodation. These requirements must be promulgated in all Center policies, practices, and operations and its themes must be fully incorporated into every Center activity. This is of critical importance and will directly impact resident life, health, and safety.

Expected Outcomes
The expected outcomes of this standard are as follows (specific requirements are defined in the Expected Practices section in this standard):

1. Upon admission to a Center, each resident 14 years of age and older will be provided the comprehensive written orientation materials in the form of a resident handbook. The resident handbook will notify residents of key ICE Family Residential Standards provisions and services provided at the Center.

2. Each resident will verify, by signature and date, receipt of those orientation materials, and that acknowledgement will be maintained in the resident's file. Centers will require adult residents to explain the contents of the resident handbook to their children under 14 years of age.
3. The resident handbook will be provided to residents in English, Spanish, and other predominant languages as determined necessary by the FOD. The Center Administrator will ensure that the Center has sufficient quantities in each language, and will request additional copies of the resident handbook from the FOD as needed.

Standards Affected
Not applicable. This is a new standard.

Expected Practices
A. General
For consistency among Centers, the resident handbook will be used as a comprehensive orientation resource and will include Center-provided information specific to that Center’s operations. All items will be in compliance with this standard and will be approved by the FOD and Juvenile and Family Residential Management Unit Chief prior to distribution.

Centers will require adult residents to explain the contents of the resident handbook to their children under 14 years of age.

For residents who cannot read or do not understand the language of the handbook, the Center Administrator will arrange for the handbook materials to be read to the resident or will provide the material using audio or video tapes in a language or manner the resident understands.
