This document describes the planned system changes for Batch File Processing (Batch) in SEVIS Release 6.29. The modified Application Program Interface (API) Document will be available on the day of implementation for SEVIS Release 6.29 at http://www.ice.gov/sevis/schools/sevis#tab1. **The Production environment implementation is estimated for September 30, 2016 but this date is subject to change**. The official schedule for the Production environment upgrade will be communicated in advance.

F/M Schools

Student Registration for Students in Active Status

To provide clarity to the Student Current Session Start Date, the following F/M eligibility processing error codes will be modified.

F/M Eligibility Processing Error Codes – Student Current Session Start Date

Code	Description
S1194*	Current Session End Date must be on or after the Current Session Start Date

NOTE: Asterisks (*) indicates that the Processing Error Code has been modified
