

This document describes the system changes for Batch File Processing (Batch) in SEVIS Release 6.31. The updated Create-UpdateStudent schemas and modified Application Program Interface (API) Document for SEVIS Release 6.31 are also available on <http://www.ice.gov/sevis/schools/sevis#tab1>. The outlined system changes were applied to the Production environment on December 18, 2016.

F/M Schools

Student Registration – Foreign Phone Number Element

For this release, the **Create-UpdateStudent.xsd** schema will be modified to add the student's foreign telephone number during initial and continued registration to ensure that SEVIS real time interface and batch are in synch.

To support the modification to support student registration the following data elements will be **added** to the **Create-UpdateStudent.xsd** as follows:

- UpdateStudent.Student.Registration.Telephone.Phone.Foreign.CountryNumber
- UpdateStudent.Student.Registration.Telephone.Phone.Foreign.PhoneNumber

F/M Eligibility Processing Error Code – Student Registration for Initial and Continued Registration

Code	Description
S1205	ForeignCountryNumber is required if ForeignPhoneNumber has been entered
